

Gavita TripleStar 600 US

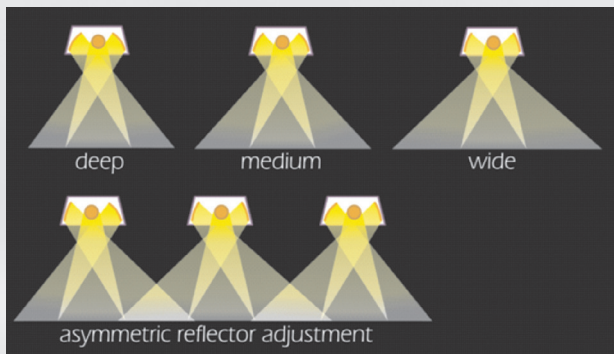

- Adjustable: deep, medium, wide
- Symmetric / asymmetric
- Efficiency >90 %
- Miro aluminum reflector
- Replaceable reflector plates
- For MH/HPS lights up to 750 W
- Shielded terminals

Gavita TripleStar 600 reflector

The reflector is one of the key elements of a successful fixture. You can have the best ballast and the best lamp, but without a good reflector you waste a lot of light, every day you use it. For difficult conditions and absolute flexibility we developed the sturdy TripleStar adjustable reflector.

The TripleStar 600 can be adjusted to 3 different positions: Wide, medium or deep. You can hang your reflector high above your plants in the deep position for better climate control or close and wide in tight spaces. For every position the efficiency of the light is better than 90 %. In set-ups with more reflectors you can adjust them asymmetrically: Wide in the middle for more overlap and better uniformity and deep at the sides to direct the light down, away from the wall.

The TripleStar is a very compact and versatile reflector creating a better and more even light distribution in any situation.

The three Miro Aluminum reflector plates are replaceable, so you never have to replace your complete reflector again. We recommend to change reflector plates every year.

The lamp cord terminal is shielded by a metal housing.

Equipped with an E39 lamp socket the TripleStar 600 US is suitable for MH and HPS lamps ranging from 400 - 750 Watt.

400-750

Gavita TripleStar 600 US specifications

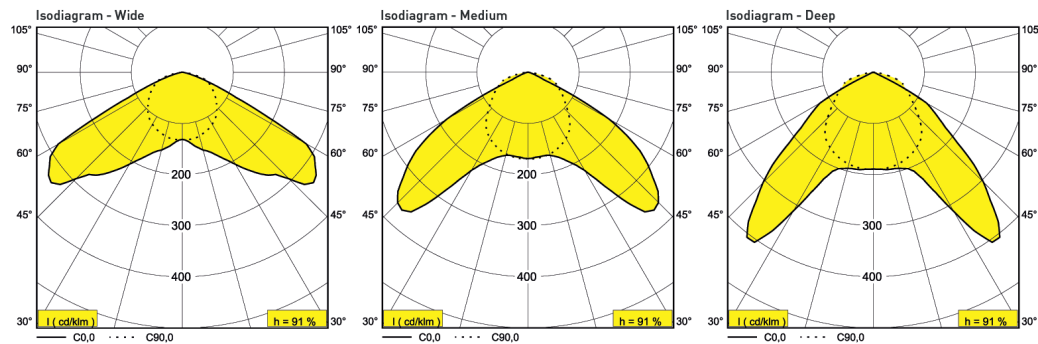

Features/benefits

- Compact, rugged, stable and safe
- Adjustable reflectors: deep, medium, wide positions
- Symmetric / asymmetric light adjustment
- Efficiency >90 % in every position
- Replaceable Miro aluminum reflector plates
- For MH/HPS lights up to 750 Watt
- Shielded terminals
- Eye bolts enable easy installation

Technical specifications

Dimensions	: 18.3" / 465 mm (length) x 9.8" / 249 mm (width) x 5.5" / 140 mm (height)
Lamp holder	: E39
Reflector	: 3 replaceable Miro aluminum reflector plates
Lamp cord	: 13' cord with plug & play XR601 plug
Cord terminal	: Metal shielded
